Engineered Component  
Solutions for the Solar Industry

## PV MODULE CLIPS

Manage up to 4 cables directly on the PV module frame, frameless modules, or other similar materials.

	100 Pack	Bulk Pack
SunRunner Vidrio™ Clip (1 or 2 PV cables) for frameless modules	S6460	S6500 (2000 pcs)
SunRunner Clip (1 or 2 PV cables) for standard applications	S6405	S6445 (4000 pcs)
SunRunner 316 Clip (1 or 2 PV cables) 316 Stainless Steel for high salt air applications	S6490	S6495 (4000 pcs)
SunRunner EZ Clip (1 or 2 PV cables) designed for thicker panels	S6407	S6447 (3000 pcs)
RevRunner Clip (1 or 2 PV cables) for positioning cables within PV module frame	S6507	S6547 (4000 pcs)
SunRunner 4 Clip (Up to 4 PV cables or flat trunk cables) for standard applications	S6443	S6483 (2000 pcs)
SunRunner 90 Clip (90° single PV cable) 90° single cable	S6406	S6446 (4000 pcs)
SunRunner 90-2 (90° 2 PV cables) 90° two cable	S6436	S6476 (3000 pcs)
SunRunner 90-4 Clip (90° 4 PV cables or flat trunk cables) 90° four cable	S6439	S6479 (2000 pcs)
SunRunner 2-S Clip (Round trunk cable clip) for rail-less systems	S6448	S6488 (3000 pcs)

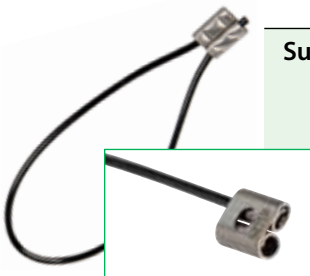

## TOP RAIL CLIPS

Manage trunk cables and/or PV wires along popular racking extrusions. Available in stainless steel or UVX nylon material.

	100 Pack	Bulk Pack
SunRunner 2 Clip (Round trunk cable) K2 Systems/Everest, SnapNRack and similar rack profiles	S6404	S6444 (2000 pcs)
SunRunner 4-2 Clip (Enphase Q cable or SolarEdge cable) K2 Systems/Everest, SnapNRack and similar rack profiles	S6504	S6544 (2000 pcs)
SunRunner 2-U Clip (Round trunk cable) Unirac, Ironridge, & similar rack profiles	S6401	S6441 (2000 pcs)
SunRunner 4-2U Clip (Enphase Q cable or SolarEdge cable) Unirac, Ironridge, & similar rack profiles	S6505	S6545 (2000 pcs)
SunRunner 2-R Clip (Round trunk cable) S:Flex, Renusol, & similar rack profiles	S6402	S6442 (2000 pcs)
SunRunner 2-UVX Clip (Nylon round trunk cable) K2 Systems/Everest, SnapNRack and similar rack profiles	S6463	S6473 (2000 pcs)
SunRunner 2-U-UVX Clip (Nylon round trunk cable) Unirac, Ironridge, & similar rack profiles	S6461	S6471 (2000 pcs)
SunRunner 2-R-UVX Clip (Nylon round trunk cable) S:Flex, Renusol, & similarrack profiles	S6462	S6472 (2000 pcs)

# BUNDLING SOLUTIONS & OTHER ACCESSORIES

**SunBundler®** (For managing larger bundles ranging from 2.30" to 9.87" in diameter)  
**Aircraft grade stainless steel wire with UV-protected vinyl jacket.**  
**Ideal for use in extreme conditions.**

100 Pack	Bulk Pack
S6408	S6409
S6410	S6411
S6412	S6413
S6414	S6415
S6420	S6421
S6424	S6425
S6426	S6427
S6428	S6429
	(1000 pcs per item)

**Heyco® Nytye® Nylon 12 Cable Ties** (Manages bundles ranging from .87" to 7.80" in diameter)  
**Weather/UV resistant and suitable for high moisture, corrosive, and low temperature indoor or outdoor applications. Various tensile strengths and lengths available**

**Heyco® Nytye® Nylon Cable Ties** (Manages bundles ranging from .63" to 18.07" in diameter)  
**Easy-to-install way for managing cables. Light UV resistance—not recommended as the primary method for securing cables due to sensitivity to environmental conditions.**

**Helios UVX Clip** (Installs into a .260" mounting hole and holds up to 2 cables between .230 - .315" each).

**Heyco® Heavy Duty Lockit™ P Clamps** (for routing & securing larger bundles or conduit/tubing)  
**Unique design allows for easy installation and release features enable serviceability and maintenance.**

**Heyco® Heavy Duty Nylon Lockit™ P Clamps** (for routing & securing larger bundles or conduit/tubing)  
**Unique design allows for easy installation and release features enable serviceability and maintenance.**

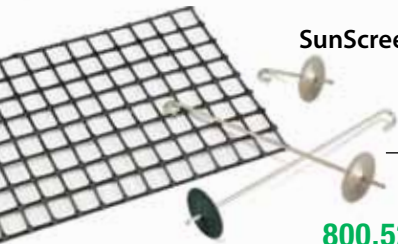

**MaxRunner** (Hold up to 12 cables with wire diameters ranging from .20" (5,2 mm) to .28" (7,2 mm).  
**Attaches to materials from .06" to .25" thick with clip mount version or for more versatility, the flush mount version attaches with screws (not included).**

**SunRunner CT & SunRunner CT-EZ** (Works with SunBundlers, Stainless Steel Cable Ties, & UV Nylon Cable Ties)  
**Ideal for use where holes cannot be used or where adhesives are unacceptable.**  
**CT version accommodates panels from .06" - .12". CT-EZ version accommodates panels from .12" - .25"**

**Stainless Steel Cable Ties** (Bundles up to 11.81" in circumference)  
**Stainless steel cable ties have more strength and better durability than nylon cable ties. Coated ties offer additional protection on the wire/cable bundle.**

**SunScreener® Stainless Steel Wire Mesh Clips & SunScreen™ Wire Mesh** (Used together, helps protect solar panels from damage caused by rodents and nesting birds)  
**Mesh size: 0.5" x 0.5" openings. Available in 4", 6", & 8" widths x 100' rolls.**

**For more information or to order, contact:**  
**800.526.4182 • renewables@heyco.com • www.heyco.com**

Covered under Heyco's 20 Year Solar Warranty

## CORDGRIPS / SOLAR MASTHEADS

**Heyco®-Tite Solar Masthead II Liquid Tight Cordgrips** (Eliminates the need for multiple entries into combiner boxes, junction boxes and other enclosures)  
**Unique, skinned-over technology remains liquid tight even if all holes are not being used.**  
**Accommodates a variety of cable diameters/configurations.**

**Heyco®-Tite Liquid Tight Cordgrips for Enphase Q Cables** (Designed specifically for Enphase Q Cables)  
**Provides a liquid tight connection into junction boxes for either 2 Enphase cables and 1 ground or a single Enphase cable.**

**Heyco®-Tite Liquid Tight Cordgrips** (Provides a liquid tight connection for single cables or multiple cable configurations into micro-inverters, junction boxes, and other pieces of equipment)  
**Available in NPT, Metric, and PG.**

To access Rep/Distributor lists for the following areas:

**Americas**

Canada  
Mexico  
South America  
US (by state)

**International**

Africa  
Asia  
Europe  
Middle East  
Pacific/Oceania
