### RE: Potential 3M Material Supply Disruption

3M has recently announced that one of their suppliers has declared force majeure and has announced a discontinuation of the following 3M products:

- 3M™ Fastener Adhesive 2353B
- 3M™ Fastener Adhesive 2353Y
- 3M™ Fastener Adhesive 2510N
- 3M™ Fastener Adhesive 2510R

### ND Equivalent Products

The following ND Industries microencapsulated epoxy products are fully available and can be specified as an equivalent.

| 3M Product | ND Equivalent Product  | Color*       |
|------------|------------------------|--------------|
| 2353B      | ND Microspheres 593sB  | Blue         |
| 2353Y      | ND Microspheres 593Y   | Yellow       |
| 2510       | ND Microspheres 1193SO | Burnt Orange |
| 2510N      | ND Microspheres 1193SN | Neutral      |

\*Other colors are available upon request

Product performance comparison data is located on the following page.

### Benefits of Working with ND Industries:

- **Industry Leader** - Customers can rely on ND Industries to continue as an industry leading provider of high quality fastener coating products and services, serving wide variety of industries, including automotive, electronics, aerospace, marine, military, construction, and appliance.
- **Product Variety** - ND Industries manufactures and applies a wide variety of materials onto fasteners and assemblies to aid in functions such as locking, sealing, masking, lubricating, and noise and vibration dampening.
- **R & D Department** - ND's in-house Research and Development team is comprised of degreed scientists and chemists dedicated to the development and testing of all our chemical formulations. The ND lab holds an A2LA ISO/IEC 17025:2005 accreditation and is able to assist customers by performing independent testing for a wide range of criteria.
- **Application Engineering Support** - ND's dedicated application engineering personnel are available to recommend and coordinate the implementation of solutions for fastener adhesive and sealing challenges.
- **Made in U.S.A.** - Many ND Industries material formulas, including microspheres, are manufactured in Troy, Michigan, U.S.A.. ND's chemical blending operation manufactures a wide variety of adhesives, microcaps, anaerobics, epoxies, urethanes, ultraviolets, acrylics, and more.

For answers to any questions you have regarding this issue, contact your ND Industries representative, or submit inquiries to [info@ndindustries.com](mailto:info@ndindustries.com).

# ND (593S & 1193S) / 3M (2353 & 2510) Product Performance Comparison

## Installation Torque

| Material   | ND                  | 3M  |
|------------|---------------------|-----|
| (Nm)       | Installation Torque |     |
| <b>M12</b> |                     |     |
| Dry Phos   | 1.6                 | 2.0 |
| Zinc Flake | 1.7                 | 2.0 |
| <b>M10</b> |                     |     |
| Dry Phos   | 0.9                 | 1.1 |
| Zinc Flake | 1.0                 | 1.1 |
| <b>M8</b>  |                     |     |
| Dry Phos   | 0.5                 | 0.9 |
| Zinc Flake | 0.6                 | 0.7 |
| <b>M6</b>  |                     |     |
| Dry Phos   | 0.2                 | 0.3 |
| Zinc Flake | 0.2                 | 0.3 |

## Break and Prevailing Torque

| Material   | ND       |         |          |         | 3M       |         |          |         |
|------------|----------|---------|----------|---------|----------|---------|----------|---------|
| Cure Time  | 24 hours |         | 72 hours |         | 24 hours |         | 72 hours |         |
| (Nm)       | Break    | Prevail | Break    | Prevail | Break    | Prevail | Break    | Prevail |
| <b>M12</b> |          |         |          |         |          |         |          |         |
| Dry Phos   | 47.0     | 39.9    | 54.7     | 54.0    | 46.6     | 17.7    | 52.3     | 16.6    |
| Zinc Flake | 54.4     | 37.4    | 56.9     | 49.4    | 51.9     | 24.4    | 57.2     | 26.5    |
| <b>M10</b> |          |         |          |         |          |         |          |         |
| Dry Phos   | 33.9     | 25.4    | 34.6     | 28.6    | 25.7     | 9.9     | 34.6     | 10.9    |
| Zinc Flake | 34.6     | 19.8    | 38.1     | 24.4    | 29.7     | 11.3    | 30.7     | 14.8    |
| <b>M8</b>  |          |         |          |         |          |         |          |         |
| Dry Phos   | 13.6     | 9.8     | 17.1     | 15.3    | 13.3     | 5.3     | 14.3     | 5.8     |
| Zinc Flake | 14.8     | 12.6    | 17.2     | 12.1    | 14.6     | 7.8     | 13.4     | 7.3     |
| <b>M6</b>  |          |         |          |         |          |         |          |         |
| Dry Phos   | 4.4      | 3.3     | 6.1      | 4.6     | 5.1      | 1.8     | 5.7      | 1.7     |
| Zinc Flake | 4.6      | 3.0     | 5.6      | 3.4     | 5.3      | 2.4     | 5.4      | 2.9     |

## Breakaway Torque, Various Conditions

| Material   | ND               | 3M   |
|--|------------------|------|
| M10 fasteners (Nm)                               | Breakaway Torque |      |
| <b>500 Hour @ 135°C Heat Aging</b>               |                  |      |
| Dry Phos   | 33.9             | 39.6 |
| Zinc Flake                                       | 42.4             | 44.1 |
| <b>Engine Oil 5W30 @ 120°C (168 hours)</b>       |                  |      |
| Zinc Flake                                       | 48.0             | 32.5 |
| <b>Brake Fluid @ 90°C (168 hours)</b>            |                  |      |
| Zinc Flake                                       | 45.2             | 20.4 |
| <b>50/50 Water/Antifreeze @ 90°C (168 hours)</b> |                  |      |
| Zinc Flake                                       | 45.2             | 28.6 |
| <b>Diesel Fuel @ 25°C (168 hours)</b>            |                  |      |
| Zinc Flake                                       | 37.4             | 32.5 |

## Breakloose Torque

| Material                      | ND                | 3M   |
|-------------------------------|-------------------|------|
| Cure Time                     | 24 hours          |      |
| (Nm)                          | Breakloose Torque |      |
| <b>M10: Preload = 46.3 Nm</b> |                   |      |
| Dry Phos                      | 63.9              | 66.4 |
| Zinc Flake                    | 63.9              | 66.0 |
| <b>M8: Preload = 23.2 Nm</b>  |                   |      |
| Dry Phos                      | 32.8              | 33.9 |
| Zinc Flake                    | 30.9              | 32.6 |
| <b>M6: Preload = 9.6 Nm</b>   |                   |      |
| Dry Phos                      | 10.5              | 10.4 |
| Zinc Flake                    | 9.4               | 9.5  |

## Coefficient of Thread Friction

| Fastener              | ND   |
|-----------------------|------|
| M10 Zinc Flake        | 0.14 |
| M10 Zinc Electroplate | 0.16 |
