Mounts

Proximity Sensor Mounts

For Cylindrical/Tubular-Style Sensors

The sensor mount product family is a system of mounting, positioning and wire management devices designed for proximity sensors used on conveyors and industrial automation equipment. The unique retention slot feature quickly positions and retains the sensor locknut, which simplifies installation and repositioning. Hybrid construction with galvanized steel mounting plate reduces weight, tolerates high torque and adds stability. Attach with an M6 or #10 mounting screw.

Features and Benefits

- Vertical slotted pocket design allows easier assembly and adjustability.
- Integrated retaining gap allows for single-tool tightening.
- Locating grooves create a visual reference point for easier sensor alignment.
- Multiple mounting slot positions for quick assembly and cable tie mount to manage excess cable loops.

MATERIAL	Polyphenylene Sulfide (PPS), Steel (ST), Zinc plated (ZN)
Color	Black (BK)

PART NO.	TYPE	Fits Sensor Size	Length (L) in. (mm)	Width (W) in. (mm)	Height (H) in. (mm)	Mounting Hole Dia. in. (mm)	Mounting Screw Type	Color	Pkg. Qty.
151-04215	SENMT18M6	18 mm	1.8 (46.7)	1.5 (38.0)	1.9 (47.5)	0.2 (4.3)	#10.0 (M6) Screw	Black	100

Dimensions are approximate and subject to technical changes. Use Part No. for ordering and Type for specification purposes.
